Mr. Julius Ochs Adler
 General Manager
 The New York Times
 Times Square
 New York, New York

Dear Mr. Adler:

The booklet "We Are Not Helpless," referred to in your letter of September 25, had already come to my attention. I feel that Mr. Lawrence performed a useful service in presenting some of the material of "The Effects of Atomic Weapons" in a more popular form and that the T.N.S is to be commended in making the material available to a wide public in its reprint. My office could use a hundred copies if you would care to send that many.

Sincerely yours,

Shields Warren, M.D.
 Director, Division
 Biology and Medicine
